Web-based material – euroguidance.se

The screenshot shows the website's interface with three main navigation tabs: "VÄGLEDNING vid en utlandsvistelse", "MÖJLIGHETER program & på egen hand", and "MOBILITET i teori & praktik". Below these is a section titled "Euroguidance.se" with a map of Europe and introductory text. The text states: "Välkommen till Euroguidance Swedens informationssajt om vägledning för internationell rörlighet. Syftet är att underlätta arbetet för dig som är vägledare eller på annat sätt jobbar med mobilitet. Här finns arbetsmaterial för själva vägledningsprocessen, en översikt över internationella möjligheter för olika målgrupper samt regler och överenskommelser som förenklar mobiliteten och praktiska råd inför en utlandsvistelse. Euroguidance Sweden är en del av Universitets- och högskolerådet."

Vägledning vid en utlandsvistelse
Vägledning för internationell rörlighet handlar om att kunna stötta den sökande både *fore, under* och *efter* en utlandsvistelse. Här kan du ta del av praktiska metoder, texter och annat material som kan bidra till själva vägledningsinsatsen vid studier, praktik och arbete i andra länder.

Möjligheter – program & på egen hand
Att spendera en tid utomlands och uppleva vardagen där innebär nya erfarenheter och nya perspektiv. Internationella erfarenheter kan både öppna nya karriärvägar och bidra till nya intresseområden. Här får du information om hur man kan ta sig ut, både inom ett program och på egen hand.

Mobilitet i teori & praktik
Internationellt utbyte och samarbete blir allt viktigare i vår globala värld. Här kan du läsa om de initiativ som har tagits för att främja mobiliteten både på nationell och europeisk nivå. Här hittar du också information om praktiska förberedelser inför en utlandsvistelse.

To create a good potential for learning it is important to assure the quality of the period spent abroad.
