Problems and needs

- To many drop outs!
- Unsatisfactory cooperation between parties involved in guidance for youngsters at risk

Aims and Objectives

- Improving the quality of guidance and reducing the number of dropouts through:
 - Building a sustainable and useful system for regional cooperation between education and other parties;
 - Transferring parts of the Finnish Training Guarantee Model into NL, LT and DE
 - Identification of key factors for successful drop-out prevention
 - Strengthening and adaptation of the Finnish TG Model

Approach

- Understanding the Finnish Training Guarantee Model
- Analysis; study of the actual situation in Netherlands, Lithuania and Germany
- Transfer of successful and useful parts of the FTGM to the Netherlands, Lithuania and Germany:.....

.....Concerning

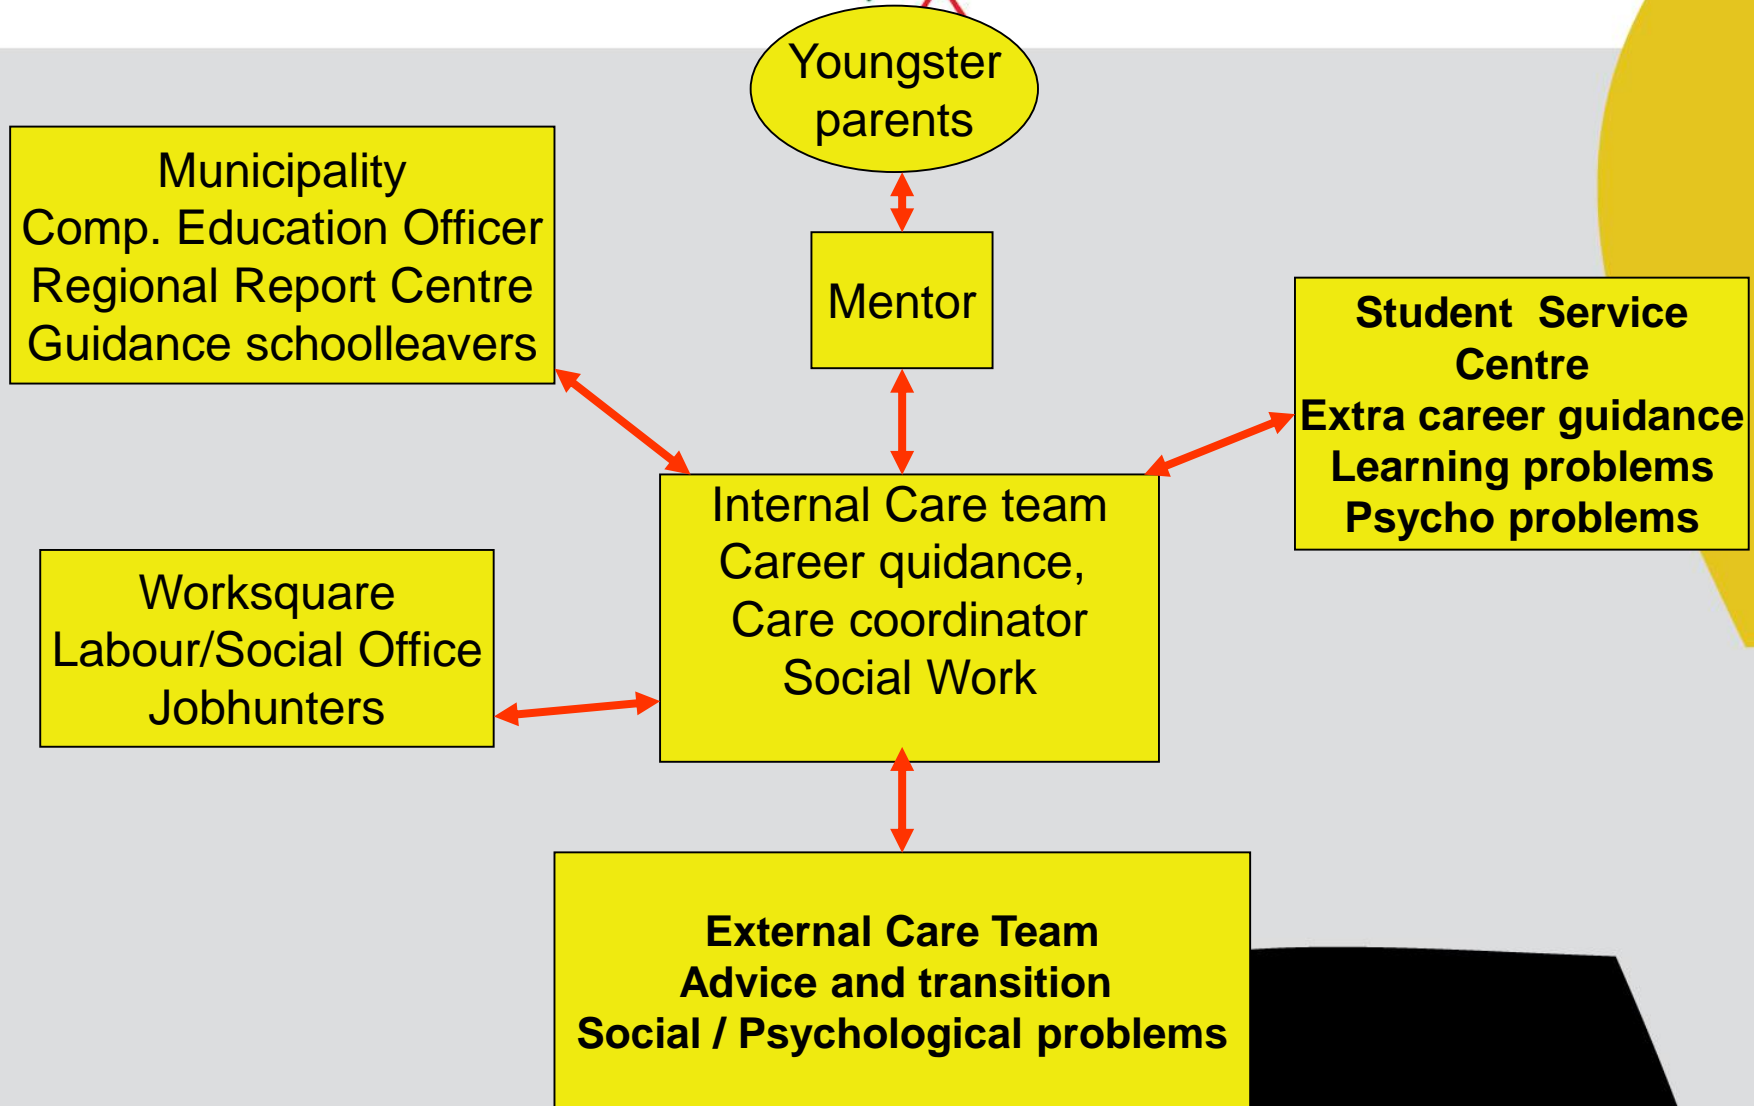

- Management and organisation
- Methods and instruments
- Cooperation with other actors such as social work and employers
- Competencies of teachers and other professionals involved
- Parent involvement
- Financial aspects

Key factors in the Finnish approach

- Focus on practical application and implementation;
- Overall co-operation is important;
- Local/regional approach is a key factor for success;
- Result driven!

What we did in Northern Groningen

- Improving transfer vmbo-mbo and mbo-working life
- Implementing new methods of sharing information
- Strengthen the structure and co-ordination of support & guidance

Looking back, C2CC was

- Based on confidence and trust
- Based on a real problem
- Based on a reliable analysis
- Based on an excellent model for transfer
